- The city benefits of excellent road and rail links to other bigger cities.
- Varna Medical University has good living conditions and is known as the black sea capital, Varna has been selected for the best city in Bulgaria offering the best living conditions.

BULGARIA

plovdiv

The University offers degrees in Medicine and Dentistry, Both courses are GMC and GDC approved respectively. This means there'll be no need for additional assessments like PLAB once students have returned to the UK.

Established in 1945, Plovdiv Medical University is one of the best universities in Bulgaria, just one reason why it's popular among students all over the World.

The University offers degrees in Medicine and Dentistry, both courses are GMC and GDC approved respectively. This means there'll be no need for additional assessments like PLAB once students have returned to the UK.

The University has over 3500 students and over 500 highly qualified professors and assistants guaranteeing that the highest levels of knowledge will be passed onto the students.

The University has various facilities and uses modern technology to teach.

Like with other Universities in Bulgaria, the duration of the Medical course is 6 years. It involves training in pre-clinical and clinical disciplines, as well as a one-year clinical rotation.

BULGARIA

Sofia

MEDICAL UNIVERSITY

SOFIA

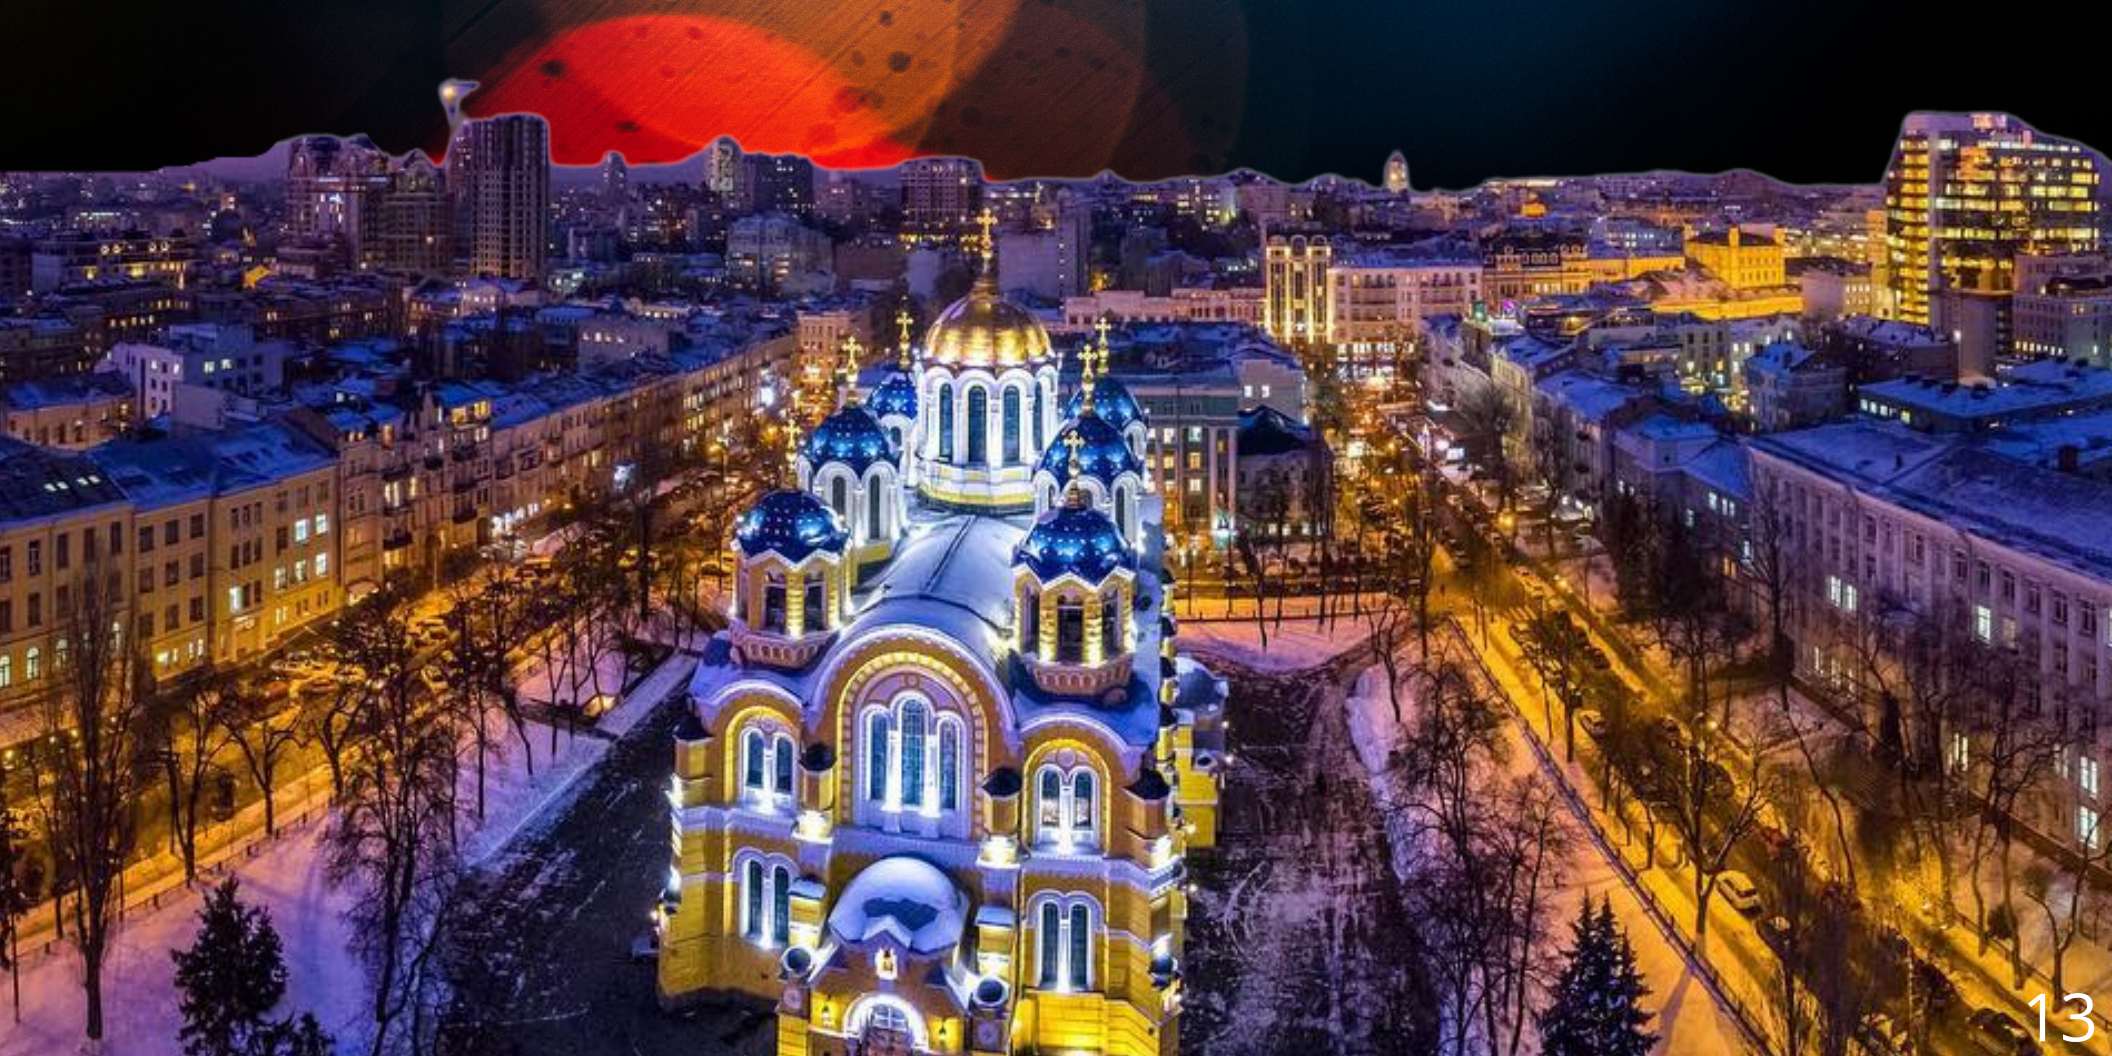

Based in the capital of Bulgaria, Medical University – Sofia (MUS) offers a high level of teaching, training and offers excellent facilities for prospective international students. It is the oldest institution for higher medical education in Bulgaria.

The University, like in most Western European countries and the United States, it consists of 2 main structures – Pre-clinical Base and Clinical Base. It currently employs over 1500 lecturers and research associates.

- GMC AND GDC recognized – so no need for PLAB once the students return to the United Kingdom.
- Well qualified professors and assistants
- Various facilities and modern technology.

UKRAINE

Poltava

THE UKRAINIAN MEDICAL STOMATOLOGICAL ACADEMY

Located in the city of Poltava, The Ukrainian Medical Stomatological Academy is one of the oldest leading higher educational establishments in Ukraine, which traces back its history to the Faculty of Odontology, which was established at the Kharkiv Medical Academy in 1921. The Academy employs 92 Doctors of Sciences, 408 PhDs; 82 persons who have the academic rank of Professor, 226 persons who have the academic rank of Associate Professor. Among the scientific and pedagogical workers of the Academy there are 6 Laureates of the State Award, 10 Honored Doctors of Ukraine, 6 Honored Scientists and Technicians of Ukraine, 1 Honored Worker of Public Health of Ukraine, 1 Honored Rationalizer of Ukraine, 2 Honored Worker of Education of Ukraine.

In the year 1994, by the order of the Cabinet of Ministers of Ukraine, it was reorganized into the Ukrainian Medical Stomatological Academy. By the letter from the Ministry of Health of Ukraine dated 02.08.1994, the Academy opened the Faculty of Nursing; in 1995 – the dental department, which in 2005 evolved into a medical college.

Offers courses in English in dentistry. The University is MCI Recognised.

Ukrainian Medical Stomatological Academy is a University which has already proven itself as an excellent and reliable institution for not only local Ukrainian students but also for international students looking to achieve a degree from well-recognised organisations.

International students enrol in September and October.

GEORGIA

Tbilisi

Tbilisi Medical Academy

Petre Shotadze Tbilisi Medical Academy (TSA) is a self-governing higher education institution – a training university, staffed by highly qualified academic staff and conducting its activities at a very high level of standard. The University has a student-centred higher education institution, provides training in national and international healthcare professionals through an innovative approach and the use of evidence-based knowledge. Since its inception, TSA has raised more than 1,500 physicians and certified physicians who have successfully worked in leading clinics, universities and scientific research centres in Georgia and abroad. At the same time, it contributes to the development of Georgian society through its research-based activities.

TSA implements two educational programs: “Medical Case” and “English Language Medicine”. It was founded in 1992 by Georgian doctor, pediatric surgeon Petre Shotadze. After graduating from the Tbilisi State Medical Institute in 1970, all his medical, scientific and pedagogical activities were connected with the Tbilisi State Institute of Physicians (Georgian Medical Academy), where he went from postgraduate student to the director and rector of the Department of Pediatric Surgery. P. Shotadze initiated the establishment of the Tbilisi Medical Academy, which in 1999, after his death, was renamed the Petre Shotadze Tbilisi Medical Academy (TSA).

Ivane Javakishvili Tbilisi State University (TSU)

This University is one of the high ranking state University in the whole Caucasus region. With thousands of undergraduate students (about 5000) and over 200 postgraduate students, it's one of the biggest Universities in Georgia. Amongst these students, 80% are students from Georgia itself and 20% and international students. On top of this, the degree issued by the University is recognised by MCI, WHO, United Nations organisation, Educational commission for foreign Medical graduates and more.

TSU offers a wide variety of degree programs at undergraduate, graduate and doctoral levels and short courses offered in the English language attracting students from all over the world. The internalization of TSU is fast-paced and it aims at creating a multicultural environment that will enhance teaching and research opportunities. TSU promotes equality to access education and believes in engaging and valuing all students and staff.

The New Vision University (NVU) is a private research university in Tbilisi, Georgia. It boasts a high quality of Education, excellent facilities and the University has its own Hospital so students get vital experience with patients. It is currently one of the fastest developing medical universities in the country. New Vision University has a good ratio of teachers to students so that students get maximum exposure to patients. The University has been attracting many international students, accounting for the majority of the University's total number of students.

LITHUANIA

Kaunas

LITHUANIAN UNIVERSITY OF HEALTH SCIENCES

Lithuanian University of Health Sciences (LSMU) LSMU is one of the best and largest institution for higher education for biomedical sciences in Lithuania with almost 100 years of academic experience and great potential for development.

Based in Kaunas, Lithuania,

LSMU is the biggest institution of higher education for biomedical sciences in Lithuania, continuing the best traditions of KMU and LVA. Students of medicine, odontology and nursing gain their practical skills at the LSMU Hospital Kauno Klinikos, which is the largest medical institution in the Baltic States. Like with the other Universities represented by Vistamed, this University offers an MD degree.
